SUMMARY

Software Engineer with 3+ years of experience building scalable, performant web and mobile applications. Proficient in React.js, Next.js, React Native, and Flutter with hands-on expertise in containerization (Docker, Kubernetes), cloud deployments, and backend integration. Passionate about delivering pixel-perfect, accessible UIs and driving measurable product outcomes.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, Dart, HTML5, CSS3

Frontend: React.js, Next.js, React Native, Flutter, Tailwind CSS, Redux, Context API

Testing: Cypress (E2E)

Backend & Databases: Node.js, REST APIs, GraphQL, MongoDB, Firebase

DevOps & Tools: Docker, Kubernetes, Git, GitHub Actions, CI/CD, Vercel, AWS (S3, EC2)

Other: Agile/Scrum, Performance Optimization, Web Accessibility (WCAG), SEO Best Practices

EXPERIENCE

Fidrox Technologies Private Ltd

Software Developer

Bengaluru, Karnataka, India

February 2025 – Present

- Architected and shipped core product features using **Next.js 14** (App Router) and **TypeScript**, improving initial page load by 35% via server-side rendering and route-level code splitting.
- Designed and maintained a reusable component library with **Tailwind CSS**, reducing UI development time by 40% across squads.
- Integrated **RESTful APIs** and **WebSocket** streams for real-time data dashboards, enabling sub-200 ms data refresh rates for end users.
- Led containerization of the frontend stack with **Docker** and orchestrated deployments on **Kubernetes**, achieving 99.9% uptime in production.
- Wrote end-to-end test suites using **Cypress**, increasing release confidence and cutting regression bugs by 50%.

Freelance

Frontend Developer

Bengaluru, Karnataka, India

April 2023 – January 2025

- Delivered **10+ client projects** — including e-commerce platforms, SaaS dashboards, and marketing sites — using React.js, Next.js, and Tailwind CSS, consistently meeting deadlines and quality targets.
- Built cross-platform mobile applications with **React Native** and **Flutter**, achieving 4.5+ star ratings on App Store and Play Store for two client apps.
- Optimized web vitals (LCP, CLS, FID) to **90+ Lighthouse scores** by implementing lazy loading, image optimization, and bundle analysis.
- Integrated payment gateways (Razorpay, Stripe) and third-party APIs, accelerating feature delivery by 30% through reusable service layers.
- Established **CI/CD pipelines** with GitHub Actions and Vercel, automating deployments and reducing manual release effort by 80%.

Vlinder Labs Private Ltd

Associate Software Engineer

Bengaluru, Karnataka, India

August 2022 – March 2023

- Developed React.js components for a blockchain-based sustainability platform, contributing to a **20% reduction in UI rendering time** through memoization and virtualization.
- Collaborated cross-functionally with designers and backend engineers in an Agile environment to ship **3 major product features** on schedule.
- Integrated **MongoDB** data models with frontend state management (Redux), ensuring consistent data flow and reducing API call overhead by 25%.

Vlinder Labs Private Ltd

Software Engineer Intern

Karnataka, India

February 2022 – July 2022

- Built and styled responsive UI pages with React.js and CSS Modules, contributing directly to production codebase within the first month.
- Wrote unit tests with **Jest** and participated in code reviews, improving code quality and team engineering standards.
- Explored **Next.js** SSR and SSG patterns, delivering a proof-of-concept that was adopted into the main product roadmap.

PROJECTS

Full-Stack E-Commerce Platform

Next.js, TypeScript, MongoDB, Tailwind CSS, Stripe, Docker

- Built a production-ready e-commerce app with SSR, dynamic routing, cart management, and Stripe checkout; containerized with Docker and deployed on a Kubernetes cluster.

Cross-Platform Fitness Tracker App

Flutter, Firebase, REST API

- Developed a Flutter mobile app for workout tracking with real-time Firebase sync, offline support, and push notifications; deployed to both iOS and Android.

EDUCATION

Dayananda Sagar Institutions

Bachelor of Engineering – Information Science

Bengaluru, Karnataka, India

2017 – 2021
